FIG

Challenges and Opportunities in Facing the SDG's:

Generational Diversity and Technology in the Land Professionals Sector

Hosted by
Institute of Surveyors in Kenya (ISK)
Supported by Thomson Reuters

African Regional Network - Nairobi 2015 

Diversity & Inclusion

The future of work is already here... are you ready?

- **Diversity**- Inter generational
- **Big Data** - Technology
- Value of a balanced business

What, How and Why

African Regional Network - Nairobi 2015 

Our Focus

How do our African Continental Associations and Educators Assist professionals to build diverse and inclusive organisations?

Key Purpose

- **Aware** of inter generational diversity
- **Affects** our professional work place
- **Acknowledge** skills to handle Big Data, and
- **Accordingly**, measure the impact on society using the SDGs

African Regional Network - Nairobi 2015 

Workshop Output: The 4 As

It will be

- A **call for Action** for the next five year period
- Enable member Associations to help their own members to **Acknowledge inter-generational diversity** in the work place.
- Identify **priority Areas that will affect** those operating in the land professional sector across Africa, such as Mentoring.
- Seek to build on **Awareness** of increasing use of **big-data management** in the work place and the contribution land professional should make to the **SDG land targets**.
