

# **The Regulated Profession of Surveyors: Legal and Organizational Issues**

**Alain Gaudet, France**

**Key Words:** Education, Engineering survey, Legislation, Professional practice, Standards

## **SUMMARY**

Seven professional organizations of private surveyors have gathered into Geometre Europas association (from Austria, Belgium, Denmark, France, Germany, Luxemburg). They have in common specific tasks, based on a public service delegation, and specific organizational model. The presentation will highlight these tasks and organizational issues; the presentator believes it will answer a number of questions for countries willing to organize the profession of surveyors.
