

LAND ADMINISTRATION AND LAND MANAGEMENT ROLE IN TACKLING DISASTER MANAGEMENT / SEA LEVEL RISE with a special focus on sustainability of island states (SIDS)

Simone Lloyd (Jamaica)

Key words: Keyword 1; Keyword 2; Keyword 3

SUMMARY

Bio: Simone is an internationally certified geospatial professional (GISP), project manager, educator and trainer with a wealth of over 15 years' experience contributing to the development of Jamaica's geospatial landscape. She currently serves as the Acting Principal Director within the National Spatial Data Management Branch of Jamaica's Ministry of Economic Growth & Job Creation. Her main responsibilities include directing daily operations, coordinating national geospatial projects, policies, events, training and education initiatives and programmes, including coordinating the National Emergency Response GIS Team (NERGIST). She currently serves as Jamaica's Focal Point and Head of Delegation to the United Nations Global Geospatial Information Management (UN-GGIM) Group of Experts and its Americas Regional Committee and Caribbean Vocal to the UN-GGIM
